Tony Thompson for sheriff

FRAN PAGE

WATERLOO --- If you are a person who believes the Black Hawk County Sheriff's Office is doing all it could for the county then you are satisfied with the status quo. I happen to believe the sheriff's office could and should have been doing a lot more to make a more effective and respected office. As we all know, it is time to elect a new sheriff and No. 1 sheriff, Mike Kubik, and his number two person, Mark Johnson, who is seeking the sheriff's job, are proposing some changes that I believe should have been done years ago.

They propose limiting spending and running the office like a business. If that is their plan, why for years have they asked for hundreds of thousands of our tax dollars in their budget, then returned hundreds of thousands back to the county's general fund? Did you see any refund on your tax dollars? Neither did I. I do not believe they are running the sheriff's office like a business but just want to look good at election time. Democratic candidate for sheriff, Deputy Tony Thompson, will operate that office in a fiscally responsible manner. That is why he will have my vote. Yes, it is way past time for a positive change in the top leadership of that office and you can help bring that change about by supporting Tony Thompson.

Please join me and vote for Tony Thompson as our new Black Hawk County sheriff.
