Tony Thompson for sheriff

JACK STEVENS

CEDAR FALLS --- Let's look at record and proof of service when considering the important vote of who we want to be the leader of the Black Hawk County Sheriff's Office. Tony Thompson has served our country not only as a drug education officer, and narcotics enforcement officer, a great grant writer, a SWAT team leader, a trainer and educator, a member of our military, and an advocate and community service organizer. He has a four-year degree and teaches at UNI as an adjunct professor. He teaches leadership at the military academy in the state. He teaches police and law enforcement subjects across the state. He teaches our children and our senior citizens about the importance of good decisions and on ways to improve our lives through sharing his knowledge and lessons.

Tony Thompson is involved in multiple groups and organizations whose primary focus is improving our community. From the physically handicapped, to aged and senior citizens; from our youth, to our farms; Tony has gotten involved. He has been on the front line and he has demonstrated time and time again, from inside these organizations that he is focused on improving our country. This is why he has earned my vote. Please join me in voting for Tony Thompson on Nov. 4 to be the next sheriff of Black Hawk County.
