Tony Thompson for sheriff

CHARLIE SIEVERS

WATERLOO --- One of the reasons I am voting for Tony Thompson is his campaign platforms. He has demonstrated his commitment to our county through his service for 15 years. His involvement in service groups, the programs he has initiated in our sheriff's office have been well documented, but I am looking toward the future. Tony Thompson plans to address illegal narcotics, community service, and jail administration as his key issues. I value his vision, and recognize that our sheriff's office could be doing more on these fronts. I also am impressed with his plan to get sentence serving inmates out to work around our county. By cleaning up our ditches and working in our parks and working with our cities, we can have a positive impact on budgets while putting a cleaner face forward to help in economic development around the county. I think Tony is on the right track and deserves the opportunity to implement these good ideas. That's why I am voting for Tony Thompson to be our next sheriff of Black Hawk County.
